

# 2012 BOULDER BANK *FITZROY VINEYARD* MARLBOROUGH SAUVIGNON BLANC

- Style made for the USA, not the UK market. Broader mid-palate with less acid.
- Fitzroy lies below sea level and imparts a distinct minerality to the flavor.
- River rock and sandy loam soils offer best water holding capability. No elevated alcohols in wines from these areas.

# 2010 BOULDER BANK *FITZROY VINEYARD* MARLBOROUGH PINOT NOIR

- Varietally correct, reigned-in style. No Syrah blended in for color or added texture
- An East-facing site which receives cooling and gentle morning sun to slowly ripen fruit. No high alcohols.
- Cane-pruned. More open canopy, better airflow. Smaller berries equal better ripening and greater complexity.
